HELIOS 500

PLUG AND SCAN

HELIOS 500

MAKE DIGITAL AFFORDABLE
FOR EVERY DENTIST
No More Discomfort of Impressions,
Benefit from Digitization Now

Why HELIOS 500?

Fit for your budget

The price of HELIOS 500 is affordable for almost everyone, and at the same time, it provides high performance.

Improve your digital workflow

One of the most accurate and fastest scanners on the market.

Free your hands

Automatic and adaptive calibration, manual calibration is not necessary any more.

WHY
HELIOS
500

Make your experience comfortable

Smaller and lighter while achieving a 16mm x 14mm high-definition field of view.

More friendly to people with sensitive teeth.

(The air duct inside the body has been upgraded.)

HELIOS 500

Accuracy

As one of the most accurate scanners on the market, HELIOS 500 has reached the state-of-the-art accuracy level- the average deviation of a in-vivo full arch scan is around **20.0µm**.

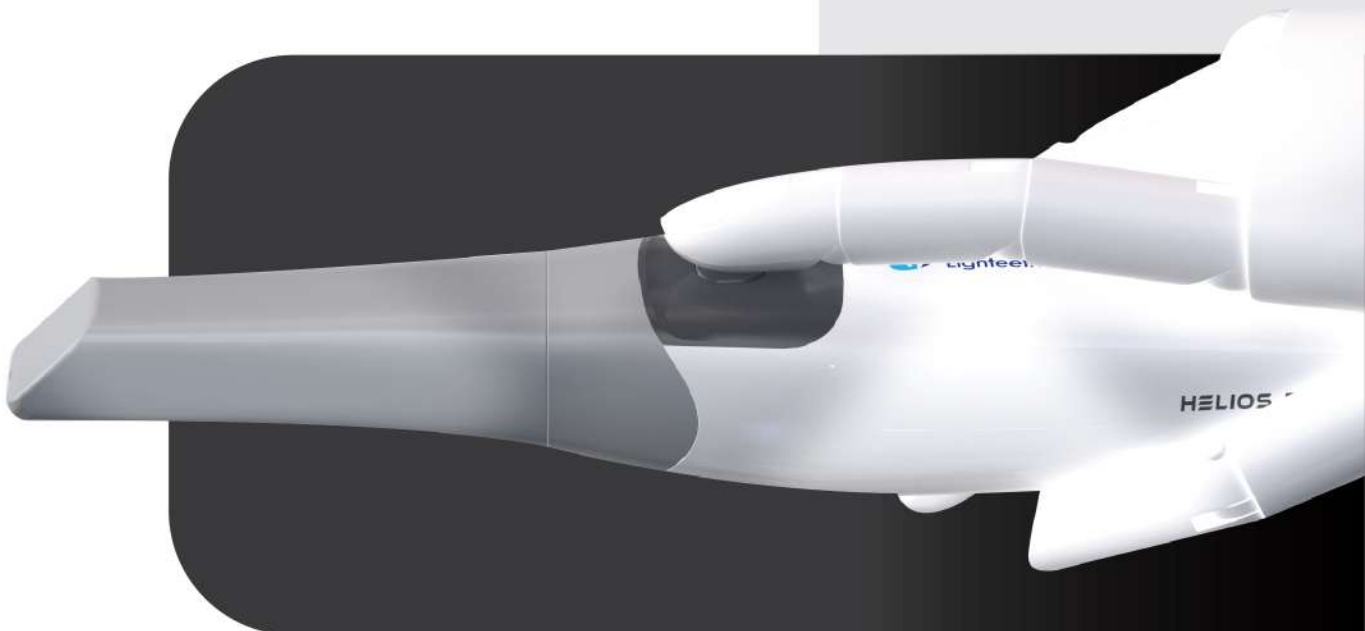

Speed

Scan a full arch in less than **30** seconds with HELIOS 500.

Weight

Only **185** grams, one of the most lightweight scanners on the market, well-balanced, ergonomically designed, and easy to carry.

AI technology

AI technology filters the soft and moving tissues, offering users a smooth scanning experience and generating a natural-looking treatment outcomes.

Patients Are
Willing To Pay
For **Less** Pain !

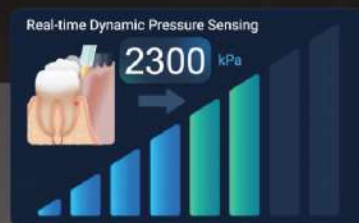

E-FLOW
DENTAL ANESTHESIA DELIVERY SYSTEM

High-precision Liquid Control

While achieving precise drug delivery accuracy, you can also see the real-time remaining dose

Real-time Dynamic Pressure

Reflecting the injection pressure based on the value and dynamic bar graph, of which dentists can adjust the operation to bring a painless and safe treatment

Training Mode

ON

Thoughtful Training Mode

Provide additional voice reminders not available in the standard mode, help users quickly learn the proper operation

Smart Reminder

ON

Smart Voice Reminder

Timely voice reminders under low anesthesia dose and high system pressure (in PDL mode)

4 injection modes, multiple options for effective pain relief

PDL Mode (periodontal ligament)

Automatic injection can be selected in this mode

Dosage Mode

Free choice of injection dose,
making the injection more stable and precise

ENDOSEAL MTA

BIOCERAMIC INJECTABLE SEALER

PREMIXED INJECTABLE
ENDOCEM MTA
PREMIXED REGULAR

[Product composition]
2g Syringe 1EA / 22gauge Tip 10EA / 20gauge Tip 10EA

**The first premixed MTA based on pure C3S with
excellent physical properties and biocompatibility
comparable to powder type MTA**

Endocem MTA Premixed Regular

PERFORATION

APEXOGENESIS

PULPOTOMY

- Hemostatic action by phyllosilicate ingredient.
- Easy to use without bleeding control.
- High compressive strength and stable dimensional change.
- Aesthetic by Zirconium Oxide.
- Easy application to narrow and deep areas.
- Outstanding biocompatibility

ENDOSEAL MTA

BIOCERAMIC INJECTABLE SEALER

2g syringe with 20 tips per package

ENDOSEAL MTA is a paste-type root canal sealer based on pozzolan cement that has excellent physical and biological properties of MTA. It is premixed and pre-loaded in a syringe that allows direct application of the sealer into the root canal without requiring powder/liquid mixing, unlike other products. The product has outstanding flowability and maneuverability, which makes it possible to completely fill the root canal system including accessory and lateral canals. It is eugenol-free and will not impede adhesion inside the root canal.

ENDOSEAL MTA is developed for root canal filling and root perforation repair, effectively preventing periapical tissue irritation as well as secondary infection.

STATE-OF-THE-ART MTA ROOT CANAL SEALER THAT OFFERS

- ♦ Fast setting time, 10-12 minutes
- ♦ Strong antibacterial effects
- ♦ Superior dimensional stability
- ♦ Easy retrieval with NiTi files
- ♦ Hermetic apical sealing
- ♦ High radiopacity
- ♦ Promotion of hard tissue formation
- ♦ No postoperative pain after overfilling

RCS RAINBOW ONE FILE

RCS MAGIC PATH ROTARY FILE

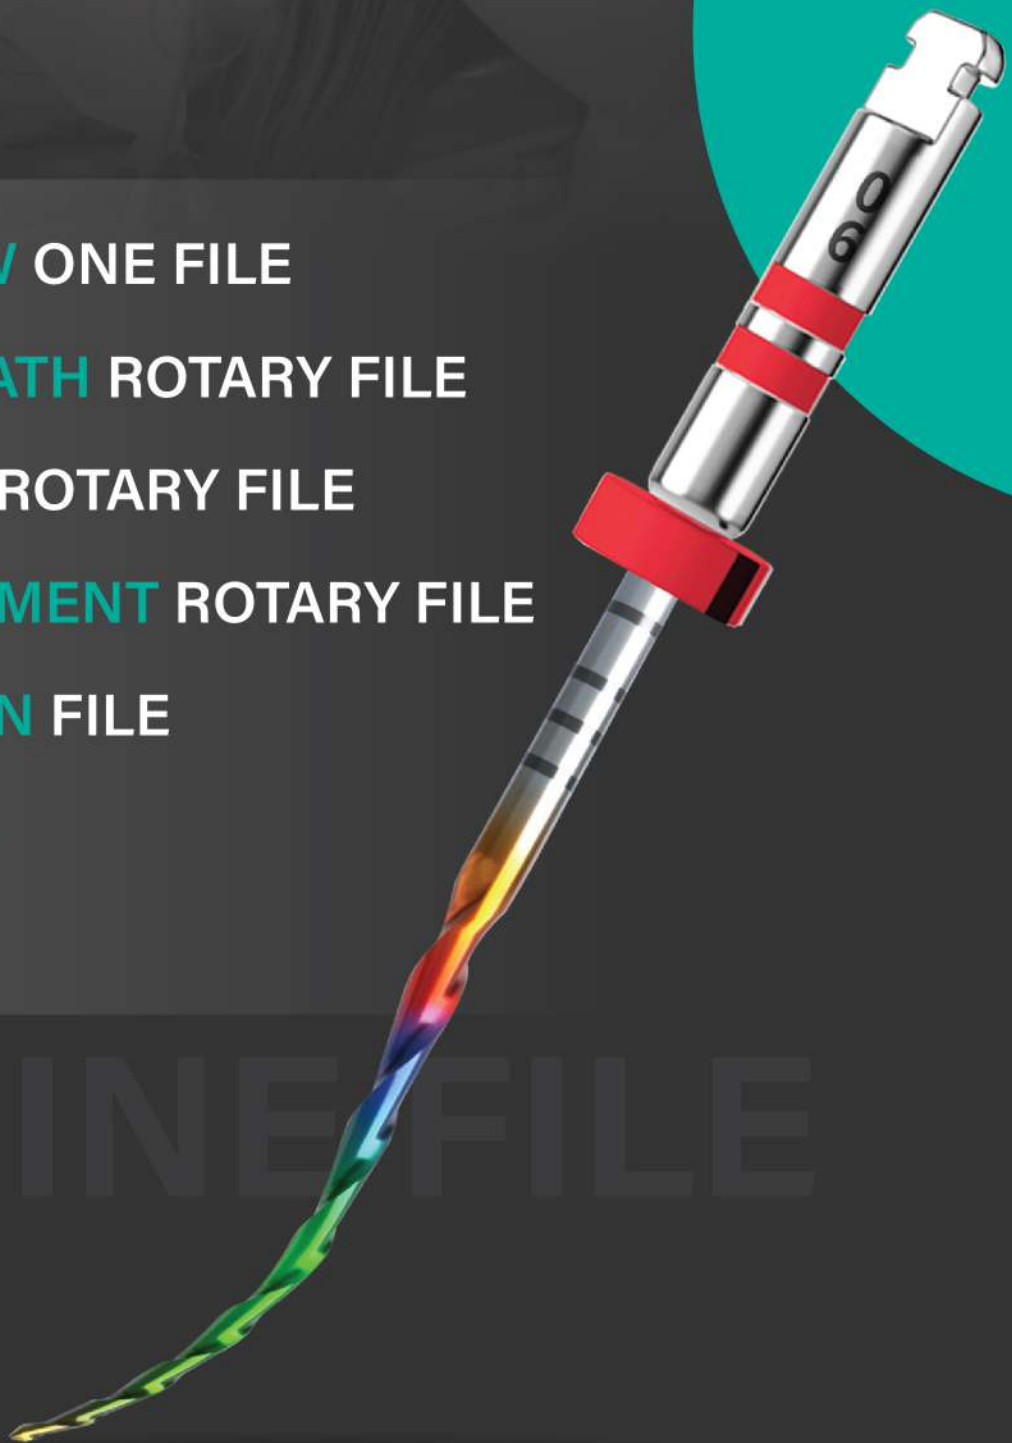

RCS GOLD LT ROTARY FILE

RCS RETREATMENT ROTARY FILE

RCS CHILDREN FILE

RCS SHAPE D

RCS K FILE

ENGINE FILE

RCS RAINBOW

ONE FILE One file system, simple and efficient instrument

FEATURES

- Flexible
- Upgraded slim S-shaped cross section.
- Special heat-treated Tech and surface treatment, reduce crack and improve resistance to cyclic fatigue.
- Greater torsional resistance and flexural strength.
- Improved cutting efficiency by more than 150%.

RCS MAGIC PATH

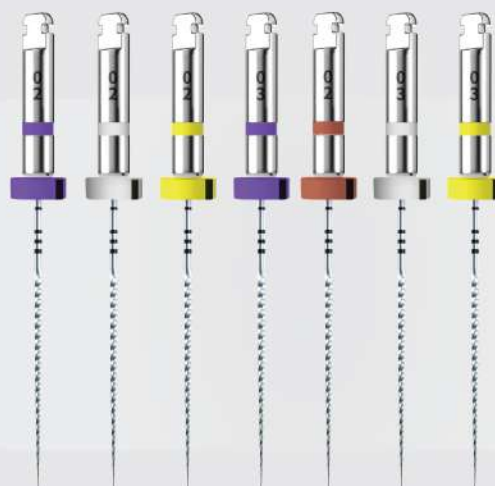

ROTARY FILE Simple | Safe | Efficient

FEATURES

- Rotary path file.
- Suitable for curved canals.
- More flexible than K-files.
- Faster instrument time than manual K-files.
- 7 sizes available.

SPEED&TORQUE 350RPM/1.5N

RCS GOLD LT ROTARY FILE

Simple | Safe | Efficient

FEATURES

- Pro-Taper system.
- OSX, S1,S2 are flexible; F1, F2, F3 are extremely flexible, control memory.
- Make sure shaping file have good cutting efficiency and finishing file can save more dentin.

RCS RETREATMENT ROTARY FILE

Simple | Safe | Efficient

FEATURES

- High shaping to remove gutta-percha and paste fillers fast.
- 5 sizes meet all retreatment request.

SPEED&TORQUE 350RPM/2.0N

RCS CHILDREN FILE

FEATURES

- Super flexible.
- Short length design is better for children use.
- Improved cutting efficiency and resistance of cyclic fatigue.

RCS SHAPE D

Simple | Safe | Efficient

FEATURES

- Stainless steel, rigid
- Shaped D cross section
- Use for enlarging root canal and negotiating calcified and narrowed root canal

RCS K FILE

Simple | Safe | Efficient
